

34 Are you willing to relocate or travel

→ Yes, I am open to relocating or travelling for work. I believe it's great opportunity to gain new experiences, and also work with diverse team and different project. And if it is great opportunity then this will also helps me to grow professionally. & Personally both.

12 What are your career option right now?

→ Currently, my career option is in IT field as a software developer. Rather it is a back-end developer or front-end developer. I built a strong foundation in programming languages like C, C++, Python and react.js So I can work as a full-stack developer

7. Why should I hire you?

→ You should hire me because my skills in

Python, Django, database-management which is align perfectly with this requirement of this role. And i also have ability to solve real-world problems. My this ability of technical skills, problem-solving skills and strong co-operative team-work makes me suitable for this job.

11. Why do you want to work at our company.

→ As a fresher, i am excited to start my career in IT field, and i researched many companies and i found that your company has vacancy and i also found good reviews about your company. I also have opportunity to build and start career in your company. So i want to work in your company.

25. What makes you angry?

→ Sometimes, improper behaviour of person or

less co-operations of team mates makes me angry. but not that much i can handle it innerly.

58. How do you define success?

→ I define success as achieving a balance between personal growth & contributing to the goal of the organization. for me success is about continuous learning and improving my skills and make positive impact through my work.

46. How many hours a week do you normally work?

→ I normally work around 50-60 hours a week, depending on workloads or deadlines. During peak period of time, i am ready to put extra efforts.

3. What are your greatest weakness?

→ I sometimes find it hard to say 'no' to additional tasks, which can lead to over-committing my self.

4. You've been with your firm a long time. Won't it be hard switching to a new company?

→ Yes, that's true, but one of my ability is to adapt a environment around my self means adaptability. So this will little bit hard but not that much. i can manage to switch your company around 2-3 weeks.

5. ~~What~~ What are your goals?

→ My current goal is to enhance my technical skill in full-stack development and gain hands-on experience in real-world projects.
